## **Power Climber Wind's IBEX<sup>®</sup> Becomes Suzlon's Climb Assist of Choice**

SEATTLE— Power Climber Wind, a division of SafeWorks, LLC, has completed the installation of over 700 IBEX<sup>®</sup> Climb Assist Systems in Suzlon wind turbines, the fifth largest wind turbine OEM.

Following extensive testing and qualification, Suzlon Wind Energy Corp. has selected the IBEX<sup>®</sup> system as its climb assist of choice for new turbines and retrofit programs.

The IBEX<sup>®</sup> system puts complete control of the climbing experience in the hands of the wind turbine technician, delivering personalized performance, increased safety, and better productivity. The IBEX<sup>®</sup> 1000P utilizes a patented closed feedback loop and EasyClimb Controller, and features a lightweight, compact, portable control box.

“We have been thoroughly impressed by everything the IBEX<sup>®</sup> climb assist system has to offer, from the ease of installation to the smooth operation to the overall product quality,” commented Mike Johnson, Director of Program Management with Suzlon Wind Energy Corp. “And the Power Climber Wind team offers unparalleled service and support, making our transactions with them seamless. Finding such a unique combination of quality and service is invaluable.”

For more information on Power Climber Wind's IBEX<sup>®</sup> climb assist, view our videos and brochures at <http://powerclimberwind.com/IbexOverview.aspx>.
