Spider Introduces Spider Knockdown Mod Platform

Seattle – Spider, a division of SafeWorks, LLC, recently launched Spider Knockdown Mod - the versatile, flexible, and cost-effective modular knockdown suspended platform that provides safe, secure and stable access for a variety of projects performed at height.

With a 2,000-lb load capacity and a variety of possible configurations, Spider Knockdown Mod fits into hard-to-reach working spaces for various construction, maintenance, restoration, painting and inspection

applications. Built-in toeboards, adjustable guardrails, one step self-locking pins, and light weight make the Spider Knockdown Mod easy to transport and assemble. Compact parts reduce inventory costs, and aluminum extrusion components extend the product’s life by resisting corrosion caused by harsh environments.

Manufactured in Spider’s ISO 9001:2008 certified facility, Spider Knockdown Mod meets or exceeds industry standards and can be easily interchangeable with other leading products and accessories on the market.

“Safe, practical, and easy to use, Spider Knockdown Mod joins our all-star solution offering to meet the ever-changing needs of our customers,” comments John Sotiroff, Vice President of Sales and Distribution. “It can be easily assembled by one person in just ten minutes, increasing efficiency on the jobsite while maintaining the highest safety standards. And its compatibility and versatility make it a cost-effective solution for multiple applications.”

Spider Knockdown Mod is available for purchase through Spider’s 24 operation centers in the Americas. For more information, download the Spider Knockdown Mod brochure http://suspended-scaffolding.spiderstaging.com/Asset/Spider_KnockdownMod_5_Web.pdf.

About Spider:
Founded in 1947, Spider, a division of SafeWorks, created the powered suspended access business by introducing the well-known Spider basket. Since then, our product and service offering has expanded greatly to serve the needs of an ever-growing marketplace. Spider is the largest manufacturer and distributor of access and safety solutions in North America, serving more customers from more locations with a wider variety of products and services than any other company. From baskets, traction hoist and platform rental, to safety and training, to specialty-engineered products - Spider has a strong team of professionals, along with a national network of sales, service and support capabilities to provide you with the most reliable access solutions available.
