Spider to Speak at Green Power Conference in Chicago

Seattle – Spider, a division of SafeWorks, LLC, will be speaking at a leading renewable energy Green Power conference, “Optimizing Wind Power Performance,” on September 27th & 28th.

Spider’s Director of Wind Access, Clint Ramberg joins other key wind turbine experts from Upwind Solutions, Acciona Energy, Suzlon Wind Energy and GE Energy to discuss how suspended access platforms can reduce the cost of wind turbine repairs. The presentation will cover pros and cons of current access approaches, safety and training requirements and how to plan mobilization, installation and operations to increase productivity.

“This conference provides the perfect forum for share learning on the changing face of wind access for operations and maintenance,” says Clint Ramberg. “Spider helps O&M experts optimize their turbine performance with suspended access solutions that are safe, reliable, and productive and maintain OSHA compliance - just what you'd expect from the market leader.”

About Spider:

Founded in 1947, Spider, a division of SafeWorks, created the powered suspended access business by introducing the well-known Spider basket. Since then, our product and service offering has expanded greatly to serve the needs of an ever-growing marketplace. Spider is the largest manufacturer and distributor of access and safety solutions in North America, serving more customers from more locations with a wider variety of products and services than any other company. From baskets, traction hoist and platform rental, to safety and training, to specialty-engineered products - Spider has a strong team of professionals, along with a national network of sales, service and support capabilities to provide you with the most reliable access solutions available.
